LCOO Strategy Review Deck

RYAN VAN WYK

Assistant Vice President (AVP) – Cloud Platform Development

AT&T Domain 2.0 Architecture & Design

LCOO Update

Meeting Goal:

Roundtable - Each LCOO company provides an overview of activities that support alignment on areas of priority overlap. Let's support each other where we can by sharing what forums and presentations each company plans to lead or participate in.

AT&T Update & Goals:

- Domain 2 Re-Org
- Network Cloud – Introduction and Focus
- Ocean and OSH Overview: Network Cloud foundation supporting 5G launch
 - Ocean intro (offline)
- Akraino Overview - Definition

AT&T Areas of Focus for Vancouver Summit:

Security

- Expand Bandit to infra quality gate
- Operationalize Barbican
- Drive keystone maturity
 - PCI-DSS Enhancements in Keystone
- Container security/ OSH

Containerization

- OpenStack-Helm adoption & momentum
- Introduce Ocean as an OpenStack project, & grow contributors/ users
- OpenStack, OSH and Ocean as core components of Akraino/ Edge

Quality

- Tempest – Testing Framework
- OPNFV collaboration (leveraging for our internal AQuA test frameworks)
- Get Patrole introduced by projects a QA gate for RBAC
